## PRESIDENT THURMAN.

**HOW DOES THAT SOUND AT THIS TIME.**

**Vice-President Wheeler Called Home ---Thurman is Elected President Pro Tem--Beck Makes a Telling Speech---We Will Appeal to the People Before Cæsar Comes--Senator Hampton Left for Washington.**

WASHINGTON, April 15th: SENATE.—The Secretary of the Senate before reading the Journal, read a note from Vice-President Wheeler, stating that he had received a telegram advising him of the dangerous illness of a sister and summoning him home. That it would be necessary for the Senate to elect a President pro tem. The Secretary asked what is the pleasure of the Senate? Davis of West Virginia, said that as there was comparatively a small number of Senators in attendance he hoped that there would be a delay of proceedings in order to enable absentees to arrive. At the suggestion of Wallace the Senate took an informal recess. It was discovered at the time the note was read that there were a larger number of Republicans than Democratic members present. The messenger was dispatched for Thurman, whom the Democrats intended to elect President pro tempore. At 12:20, however, that gentleman entered the chamber, he having been on his way to the capitol while the messenger was in search of him.

The Senate having resumed its session Bayard offered the following resolution: Resolved, That in the absence of the Vice-President, Hon. A. G. Thurman be, and he is hereby chosen President of the Senate pro-tempore. Anthony moved to strike out the name of Thurman and insert that of Hon. Thos. W. Frye. This amendment was disagreed to—yeas, 18, nays 28, and the resolution then passed. Thurman was conducted to the chair by Ferry, the former remarking to the latter on his way thither: "Turn about is fair play." Thurman on taking the chair said—Senators it is only necessary for me to say in as few words as possible, I sincerely thank you for this mark of your confidence. The journal of yesterday was then read.

The Army bill was called up. Logan addressed the Senate, denouncing the proposed legislation as bad in itself, and as being attempted by unparliamentary practices. He defended the use of the veto power, quoting President Pierce's message in 1853, to show that the Democratic doctrine had then guarded the independence of the exective as wholesome check on legislation. He declared that a system of terrorism prevailed in the South which is now resulting in the migration therefrom of people whose labor is necessary to cultivate the fields. He alleged that the democrats expected by this legislation to fraudulently control the election of the next president.

Mr. Beck followed. He said the South to-day was represented by men who were peers of any gentlemen on the other side. The democracy was warned of the appeal to Ceasar. They intend to appeal to the people before Ceasar comes—before the rubicon is crossed and the cry is, "alea jactata est." It is to prevent Ceasar from coming, that they desire soldiers to be taken from the polls. Mr. Beck continued at considerable length defending the democratic party from accusations of its opponents, and declared they were true friends to the colored race. He argued earnestly against the danger of relying on the army to enforce laws, saying, that the best warrant for making and maintaing just laws for an enlightened public opinion.

HOUSE—Immediately after reading of the Journal the Speaker proceeded to call the Committees for reports. The only report submitted was from the Committee on Accounts relative to Committee Clerks. This report was adopted and the House proceeded to the consideration of the Senate bill for the purchase or construction of a refrigerating ship for the disinfection of vessels and cargoes.

Mr. Chalmers rising to a question of privilege, asked for investigation by the House of his conduct at the battle of Fort Pillow. He made this request because of certain uncomplimentary allusions made to him by Congressmen Butterworth in a recent speech at Cincinnati. Action on the request was deferred for a day or two. The House then in committee on the whole took up the legislative appropriation bill. Pending the question, it being Bragg's motion to insert a clause repealing the law creating southern claims commission, and a substitute therefor offered by Young of Tennessee, abolishing the commission, but transferring all claims now prevailing before it to court claims. An animated debate followed, which participated in by Bragg who advocated his proposition. By Kieer of Ohio, who claimed that the commissin should not be interfered with but allowed to die by limitation, as it would do in March, 1880, also by Atkins, Baker, Young, of Tennessee, White, Garfield and others. The discussion ranged into a general question of the payment of southern claims and the manner thereof. Finally Braggs' amendment was rejected 65 to 112. Springer offered an amendment abolishing Southern Claims Commission, and providing that any person who may have claims against the United States, of which Court claims would not now have jurisdiction, but founded on equity and justice, and not barred by limitation may file his plea in court claims. It further provides that the court shall report its finding to Congress and Congress shall not allow or authorize payment of any private claim not payable under the existing law until the claim has been investigated by the court of claims. A debate followed and the committee rose without action.

**The Spofford--Kellogg Case.**

WASHINGTON, April 15th.—The Senate committee on privileges and elections to-day took up as the first case on their docket memorial, Judge Henry M. Spofford of Louisiana, claiming to be entitled to the seat in the Senate now occupied by Governor Kellogg. After some informal discussion the committee decided to notify the parties to appear in person or by counsel at an adjourned meeting to-morrow, for the purpose of presenting argument to the committee on the question whether this case is not res adjudicata.

**Tide of Immigration Sets this Way.**

LONDON, April 15th.—A dispatch to the Times from New Castle states that, numbers of the striking miners who are possessed of title and means appear determined to be permanently quiet at Durham Collieries. The immigration agents in New Castle and that district are busy sending men to the United States Colonies. The main tide of emigration seems to be towards the mining districts of the United States. There is also considerable emigration to British America.

**The Committees.**

WASHINGTON, D. C., April 15.—The House Committee on Agriculture, this morning, referred the subject of existence of Pleuro Pneumonia to a sub-Committee with instruction to ascertain all the facts possible in connection with the disease, and report on Thursday next if possible. Nearly all the House Committees are now organized and ready for business. The select Committee to inqure into causes of the depression of labor, of which (Republican) Wright, of Pennsylvania, is chairman, will soon commence taking of additional testimony on the subject. Mr. Wright says he is desirous of hearing the views of a number of the leading manufacturers of the country, and intends inviting the gentlemen to appear before the Committee at an early day.

**The N. Y. Cotton Bill.**

ALBANY, April 15.—In the assembly to-day on the bill to regulate the sale of Cotton. Mr. Brooks said he had a remonstrance against the bill signed by 90 per cent. of the people engaged in the cotton trade. No action was taken on the measure.

**Hampton on to Washington.**

COLUMBIA, S. C., April 15.—Senator Hampton left for Washington to-day.

**15th Amendment in Baltimore.**

BALTIMORE, April 15.—The colored people of this city, to-day, celebrated the anniversary adoption of the Fifteenth amendment. There was a procession of Masons, Odd Fellows and other civic societies.

**Grand Lodge Ala, K. of P.**

TUSCUMBIA, ALA., April 15.—The Grand Lodge of Knights of Pythias, of the State, was formally opened this morning, Grand Chancellor Terrell was in the chair. The committee on returns and credentials reported 25 representatives and past Chancellors were admitted, after which the reports of G. C. G., K. of R. & S. & G. M. of E. were read and referred to the appropriate committees. The Grand Lodge then took a recess.

**Funny Divorce Case.**

Washington Capital.

Washington probably has as many curious phases of the divorce of husband and wife as any city in the country. Every day brings something new. The last is in a somewhat notable family we see together daily, apparently in harmony. They consist of husband, wife and two little babies, who lived together at the home of the husband's parents until the wife's certificate of divorce came along some weeks ago, from Indiana, (grounds, "incompatibility of temper," and thereupon the wife packed up her trunks, gathered up one of the children and moved over to the home of her own parents, who are well-to-do people. It was all very pleasant —the ex-husband, with his poee-half of the progeny, politely accompanied the ex-wife and her division of offspring, and had her baggage stowed away in her new home; after a little family chat all round the table the male division withdrew with his baby. At the door; "Ta-ta, come and see me when you can," quotes he. The babies were kissed by the several parties in interest, and the ex-husband and his half of the original issue went on cheerily homeward. And so they keep it up; daily visits. The wife was born in this city, and never has been a dozen miles away from it. Neither of the parties has ever seen the Hoosier State. But an Indiana court decreed them divorced.

**NOTES ABOUT THE COMMITTEES.**

Ten new members, viz., Hostetler, Stevenson, Ladd, McLane, Whiteaker, Geddes, Converse, Wise, Coffroth and Deuster, were placed at the head of committees.

**Halifax.**

Correspondence of the News.

HALIFAX County April 12.

Sometime ago I wrote you an account of the blowing up of an old Frenchman; he was taken up and kindly cared for by the hospital people of this "Old Town." Individuals subscribing enough to pay an attendant and one of our doctors gratuitously rendering him medical assistance. To-day these good people subscribed enough to send the recuperated old man, home to his friends in Florida.

Miss Felicia Shield of Scotland Neck, the mother of our popular countyman, Mr. W. H. Shields, died, at her residence, last-night.

The case of R. O. Benton Jr. administrator of Edward Conigland against W. & W. R. R. was argued in Jackson this week, and created quite a sensation amongst the people in both counties, having been moved from this to Northampton—the jury returned a verdict for $15,000 for the Plaintiff the Judge gave judgment for $10,000 for the negligent killing of Edward Conigland. It was thought the verdict would be set aside.

Yours truly
"N. C."

**Determined to be Educated.**

Chapel Hill Gazette,

There are 62 students at the University boarding in clubs at not over $7 per month. They say they live well and are satisfied. They employ some good lady to attend to the cooking for them. One of the number is appointed Club-Master, or Treasurer. The rest pay their money and have no further care. The Club-Master is allowed a small sum for his trouble in handling the money, and occasionally purchasing supples. Such thing as bntter, eggs, &c., are bought by the lady in charge. One student lived last year on only $100 for all expenses. He "boarded himself." The disposition to incur privation and live hardly for an education, is a most encouraging sign for the future of new North Carolina.

## WADE HAMPTON.

**THE S. C. SENATOR WELL AGAIN.**

**The Old Hero on His Way to Washington.---He will not stay Long.--- He looks Remarkable Well.**

Charlotte Observer 15th.

Senator M. C. Butler and Judge T. J. Mackey arrived in the city last evening and were visted by a number of friends and acquaintances at the Central Hotel last night. Senator Butler is on the way from Charleston, whither he went about a week ago to appear in the suits in the United States court against citizens of South Carolina for violating the election laws at the last election for Congressmen in that State. He stopped over in Charlotte to see his three sons, who are cadets in the Carolina Military Institute, and will leave for Washington this afternoon. Judge Mackey says he merely came up to Charlotte to escort Gen. Butler, and to use his own words to catch a little inspiration from the historic grounds of Mecklenburg. He returned to his home in Chester last night.

Arrangements were made last night to serenade Gen. Butler and ask him for his speech, but hearing of this, he begged his friends to excuse him on the ground of fatigue. A committee of cadets of the Institute also called on him to make a similar request at a later hour, but he was compelled to decline and promised to visit the Institute this afternoon at 4 o'clock.

Gen. Butler expects to meet Governor Hampton at the depot this evening at 6:30 and the two Senators will go on to Washington together. The Hornets' Nest Riflemen at their meeting last night determined to turn out the full company this evening to escort Gen. Butler to the depot and to meet Gen. Hampton. The latter goes to Washington for the first time since the extra session began. Apropos of this our Columbia correspondent writes under date of yesterday as follows:

"Senator Hampton does not expect to be absent long, and will certainly be here on Memorial Day, 10th of May, for the unveiling of the Confederate monument; provided always it shonld not be found to conflict with his duties at the capitol. He is opposod to lengthy discussions, and does not anticipate a protracted session. The Senator is looking remarkably well, though still suffering somewhat from his local complaint. He seems independent of all assistance with the exception of that afforded by a pair of crutches, aided by which locomotion offers but but little difficulty."

**THE REPUBLICANS IN 1880.**

**The Republican Presidential Candidacy---Grant Party Tactics for the Next Campaign---Secretary Sherman the More Available Man.**

Special Dispatch Balt. Sun, 14th.

WASHINGTON, April 13.

The statement is made that a gentleman in the party now travelling with General Grant, writes here that General Grant will not again be a candidate for President under any circumstances. It is now [illegible] for General Grant to make this declaration and to have it sent here for publication. If when the time comes for making the nomination the skies look propitious, he will of course take the nomination, if he can get it. If the outlook is gloom, he can fall back on the declaration now made, and refuse with the utmost grace. The signs thicken that there was a deep laid scheme concocted as soon as General Grant left this country to work up a sentiment which would demand his re-nomination for President at the hands of the Republican convention in 1880. The man who originated this scheme and the men who are now most actively at work pushing it, are of the same class who blockaded all the avenues of the White House during Gen. Grant's administration, and who did so much to make that administration odious in the eyes of the country. These men do not doubt, nor does any one else here doubt that with Grant back in the White House their influence would be as overshadowing as before. Indeed so little prudence and discretion have some of them that they are even now at this long period in advance, chuckling over their anticipated return to the luxury of power and plunder. But the very fact that Gen. Grant is already providing a loophole by which he can crawl out if there is not a certainty of success shows that he, at least, has retained some of the horse sense with which he has always been credited. As far off as he is he is no doubt able to see what some of his henchmen at home are too blind to see, that the hurrah which has been gotten up over his renomination is simply the work of a few politicians, and that it has not found any lodging place in the hearts of the people. The shrewder politicians among the republicans who are not prejudiced by personal interest in nor personal infatuation for Grant, have no difficulty in perceiving this, and they have no hesitation in expressing the opinion that unless a great change in public sentiment occurs Grant will really be the weakest man that the republicans could nominate. As matters stand now Secretary Sherman is looked upon by the most sagacious members of his party as the most available man to run for the presidency in 1880. If next year, when the time for the meeting of the nominating conventions approaches, resumption is still a fixed fact, as there seems now no possible reason to doubt will be the case, Secretary Sherman's connection with it from the initial steps to final success will naturally make him the strongest man of his party, and with him as a candidate the purse strings of the money power would be opened much wider than for Grant or for any other republican candidate.

**A Whole Family Poisoned by Eating Wild Honey.**

Wilmington Star.

We are informed that Jack Bryant, a very respectable colored man, who lives three or four miles from Long Creek, in Pender county, cut down a bee tree, on Saturday last, and found therein a considerable quantity of honey. Our informant states that all the family, except one of his daughters, partook of the wild sweetness. She was engaged in cooking dinner, and by the time they were invited to the repast they were too sick to respond. George, a grown man, died in a few minutes, and the remainder of the family are still sick from the effects of their indulgence, though it is believed that, under good medical treatment, they will recover.

We are not advised of the particulars in this case, further than those stated, but enough is developed to show the great caution that is needed even in the consumption of articles ordinarily esteemed harmless.

**Tilden's Visit to Gen. Taylor.**

About a week before Gen. Taylor's death, Mr. Samuel J. Tilden called at Mr. Barlow's residence to inquire after the health of the general, whom he had known intimately for the past ten or twelve years. On hearing that the ex-governor was below, Gen. Taylor asked to have him shown up at once. His attendants tried te dissuade him, on the ground that in his critical condition the excitement of the interview would prove dangerous. The general insisted on seeing and conversing with the visitor, however, and Mr. Tilden was summoned to his bedside. The interview which followed was an affecting one. Mr. Tilden took the hand of the dying man, and expressed his deep regret at seeing him in such a condition. Gen. Taylor pressed the governor's hand in return and thanked him for his sympathy. Mr. Tilden gazed for a moment at the dying face and then, bending over, kissed him upon the forehead. "No man," he said to Gen. Taylor, "has ever had a wiser, truer or more unselfish friend than you have been to me." Mr. Tilden first met Gen. Taylor at the Philadelphia convention, in 1866. He was struck with his wit, candor and other engaging qualities, and the two speedily became warm friends. During his subsequent visits to the North the general called frequently upon Mr. Tilden, and the friendship, begun in 1866, ripened into a close intimacy. In the campaign of 1876 the general took a very active interest in Mr. Tilden's canvass, and was one of the most efficient workers in the contest that ended in his friend's election. Mr. Tilden entertained the highest opinion of Gen. Taylor's sagacity, and particularly esteemed him for his moderate and statesmanlike views upon questions growing out of the late war.

**The German Mission and the Editors.**

Washington Capital.

The allegation that the offer of the Berlin mission to Whitelaw Reid, Esq., "is the best kept secret the Administration has had," started up comparison of notes, which shows that the place was offered to a half dozen citizens, some prior to others since, the letter of Secretary Evarts to Mr. Reid. George W. Childs of the Philadelphia Ledger, George William Curtis of Harper's Weekly and Mr. Nordhof of the Herald are of the number who were informed that "for good and sufficient reasons thereunto moving" the President would feel happy it either of these gentlemen would take charge of the cumbersome piece of furniture and get it out of the way.

There were several reasons assigned by the gentlemen thus honored for declining the mission, and it is ascertained as a remarkable coincidence that each of the editors assigned the same objection, namely: all of them having read and accepted Sir Henry Wotten's merry definition, that "ambassador is an honest man sent abroad to lie for the commonwealth," they could not consistently perform the duties required.

Editors resemble George Washington, you know.

**Concerning Mrs. Tilton's Baby**

"There was an alleged rumor that Mr. and Mrs. Tilton had become reconciled to each other. Tangible proof of the alleged fact was said to be a baby born to the lady mentioned in an anonymous town in Conneticut. A reporter accordingly interviewed Mrs. Morse, the grandmother of the supposed baby, at her house in Brooklyn. With a blush and proper degree of hesitancy the reporter made known his errand. Mrs. Morse blushed in turn, and with considerable asperity said: "She's been here as long as I have, and you have." The reporter was satisfied with the positiveness of the lady's statement. "There was a similar one," continued Mrs. Morse, "about a year ago, which was flashed all over the country, and I thought that its contradiction then ought definitely to have settled it. No one could ever hear who started that report. Mrs. Tilton's youngest child is about 11 years old, and I am unaware of her having been confined since that time or to have been seriously ill in any way. This is a pretty story, indeed. It's a great pity, I think, that people can't mind their own business."

**What the Czar has to do.**

St. Albans Advertiser,

If the Czar wishes to converse with all his subjects in their native tongues, he must speak the dialects of the Great Russians, Little Russians, Poles, Finns, Estons, Samoyeds, Laplanders, Ostiaks, Tunguz, Yakuts, Kamtchadales, Tartars, Bashkirs, Kirguiz, Kalmuks, Tcherkessi, Ossettini, Lesguini, Armenian, Lithauer, Tchuvashi, Ugalenzi, Coloshen, Tchukchi, Grusini, Koriaki, Eskimos, Yucagniri, Lopari, Truchmen, Korels, Vaguls, Tchapogiri, Tchechenzi, Gypsies, Hebrews and Mennonites. But he's not very sociable, and perhaps he don't care to converse with them all.

**The Falcons Wings Unfolded.**

Elizabeth City Falcon.

To-day for the first time The Falcon unfolds its wings over the stage of active existence in God's beautiful sunlight. It comes trusting, hoping and without fear; trusting that a sympathising public will be always more ready to excuse error of the head and honest failure than thrust the keen darts of criticism and hoping for kindly, cordial welcome and that good results may follow its humble but well meant undertaking. With such hope and trust, there need be no cause of fear, and the Falcon promises to continue faithfully at its post of duty.

**But Now He is Stale.**

N. Y. Star.

If Congress is really anxious to foster the growth of American humor, it should abolish Le Duc and divert his agricultural appropriation to the founding of a comic journal. The bumptious Commissioner has served as the butt for a good deal of fun in this time, but now he is stale, barren, and a wholly unjustifiable nuisance.

**It will be Many a Year.**

N. Y. Star.

If the Radical scheme of enticing the Southern negroes away from their homes succeeds, it will be many a year before the South is able to bear her proportion of the burden of national taxation.

As spiritnous liquors will injure men, so opiam or morphia will harmfully affect the baby. Dr. Bull's Baby Syrup is the remedy for the baby. It is free from opium. Price 25 cents.

**An Average Sample.**

Wash. Post.

Numerous Republican papers are printing a paragraph to the effect that "the extra session of Congress has already cost the country more than $350,000." In order to get this figure the salaries of senators, members and officers are counted, all of which would have to be paid if there were no session. This is an average sample of the honesty and reliability of the Radical press.

**A Champion Test.**

Wash. Post.

If, after their experience in the Freedman's saving institution, the colored people of the South can take stock in the National Emigration Aid society, their credulity surpasses that of the marine cavalry. We shall soon know which of the two has the greater capacity to believe things. It is a champion test of gullibility.

**THE HERO OF THE MARY LOUISA.**

**The Sea was Running High---Tee-Masonic Signal of Distress---In Safety at Last.**

Newbernian

A few days since we mentioned that the Clara Merrick, a schooner bound for Wilmington, had gone down near Hatteras, having struck on the Diamond Shoals and sprung aleak, and that five men had been taken from the rigging of the unfortunate schooner by Capt. Jos. Gaskill, the schooner Mary Louisa. We have since learned the full particulars concerning the affair, and the brave and noble action of Capt. Gaskill was such that we deem it justice to give the public the benefit of a more detailed account.

The Mary Louisa was coming in from New York and when a few miles from the wreck, the men were discovered in the rigging, making signals of distress. The matter was called to the attention of Capt. Gaskill, when he went forward and closely observed the signals made by the wrecked men, after which he ordered the boat to be lowered and stated that he intended to save them if possible. The wind was blowing hard and the seas running very high at the time, and one of his men asked: "Will you try to reach those men under such circumstances as these?" The Captain replied, "I will go to them or lose my life in the attempt. I see the masonic signal of distress displayed. Who will volunteer, when the three brave men stepped into the yawl and shoved off from the vessel. As we have before stated, their noble efforts were crowned with success. They reached the wrecked men, took them from their perilous position, and braving the foaming waves, returned in safety to the Mary Louisa. By this act Capt. Gaskill saved a brother mason, the Captain of the Clara Merrick from a watery grave. After the Clara Merrick struck on the shoals, the Captain drove her for the beach but the vessel sank before she reached the beach, in seven fathoms of water. The five men had been clinging to the rigging at the mast head about six hours when Captain Gaskill rescued them.

**A NOVEL WEDDING TRIP.**

**Probably the Most Romantic and Singular of Its Class.**

From the Williamsport (Pa.) Bulletin.

On Tuesday last a wedding party in high life came off at Carpenter's in this county. Why it may be termed a wedding in high life is because it occurred on top of the high mountain directly opposite the station. After the wedding ceremony was performed the newly married couple made a somewhat novel start in life. From the top of the steep mountain they concluded to go to the station on a hand-sled. The time for starting came, and their friends, after helping to fix them and their baggage solidly on their sled, gave their sled a push, and away they went, shooting over the ground at the rate of forty miles an hour. Half way down they turned a sharp curve, when to their horror they discovered a span of mules not far distant, coming up the mountain. They saw at a glance that there was not room enough to pass those mules, and that the mules would not have time enough to get out of the way. And what made matters worse, there was a high embankment to the road. However, they did not hesitate as to what was to be done, for stop they couldn't, and to strike in among the legs of those mules they well knew would be to get kicked out of this world at once. John, the husband, of course, was the pilot of the sled, and bracing himself to meet the rapidly approachinn trouble, he exclaimed:

"Now, Maria, as you swore this morning to cling to me until death, I would advise you to give extra fastenings to your arms around my waist, for over the bank we must go!"

"Let her slide, John; I'm praying for both of us!" replied the faithful wife.

And John did let her slide, by bravely turning the sled to one side and letting it shoot over the embankment, down a distance of twenty feet into the snow below, carrying with it a bride-groom and carpet-bags in one promiscuous head. Fortunately the snow was deep enough to break the force of the fall, and nothing serious, save the smashing of John's new hat, followed. Even this would not have happened if Maria had not fastened her teeth in the rim of it just as they were about making the plunge over the embankment. Suffice it to say that the wedding party gathered themselves together again in a little while and resumed their bridal trip. John occasionally pulling off his tile to see if any improvement could be made in his appearance, his only words of censure being, "if you had allowed that hat to fly, my darling, it would have taken care of itself."

**License Fees.**

There seems to be considerable divergence of opinion in many localities as regards the amount of money a merchant or trader has to pay in order to procure a license to do business. In some counties, Sheriffs and Registers of Deeds demand that 75 cents shall be paid for a business license, and business men dispute it. The best solution of the matter will probably be found by reference to the Revenue Law. Section 28 of that instrument requires license to be taken; section 29 prescribes the form of license, and section 30 fixes the fees at 25 cents to Sheriff and Register each, thus: "No license issued by the Sheriff shall be valid until the same shall have been exhibited to and countersigned by the Register of Deeds of the county, who shall receive for the services imposed on him by this act in reference to license, a fee of twenty-five cents from every person licensed. And the Sheriff shall be allowed a fee of twenty-five cents for issuing license under this act: Provided, that said fees shall be paid only once a year by merchants and others who make returns to the Register of Deeds semi-annually."

**The Funeral of Alvin Smith.**

The funeral services of the late Alvin Smith, the colored man whose sad fate was told in this paper yesterday took place from the 1st. Presbyterian church yesterday afternoon at 4 o'clock. The magnificent coffin, the only glass casket ever in this city, bore the remains of the esteemed colored man, which were placed in the white peoples hearse and followed by Mr. Henry Brown and his family. This is the first instance of the kind ever known in this city. The church was filled to its utmost capacity. Quite a number of white people were present, among which were Rev. N. M. Marshall, D. D., Rev. Dr. Pritchard and Rev. E. R. Rich. The sermon was delivered by Dr. Atkinson and was an unusually able discourse. He preached from the text, "In my Fathers house are many mansions, &c." The Presbyterian choir sang, the beautiful and very appropriate anthem, "Nearer my God to Thee." This was another event worthy of note, and the first occurrance of the kind in this city.

Alvin Smith was a colored man; the respect shown his memory by the citizens of Raleigh is a fitting rebuke to the false statements given currency in the Northern press; that the colored man is despised and illy treated by the people of the South is denied, and the fact is thus publicly instanced.

The remains of Alvin Smith were interred in the old cemetery.

**Patterson Last Night.**

Those who fail to attead Tucker Hall to-night will lose a treat rarely afforded. Few of our people have had the privilege of hearing the works of Handel, Mozart, Bartover, Lizst, Chopin, Thalburg, Gottschalk, &c., rendered by a master hand, and fewer still have ever heard the works of these great masters explained and analyzed while thus being rendered. Patterson's visit to our city presented an opportunity to hear both, and we trust the lovers of the art were as much pleased as the high character of his entertainment would have permitted them to be.

**MURDER AT LAURINBURG.**

**A Merchant Shot and Killed by an Alleged Revenue Defrauder.--Arrest of the Murderer, etc.**

Wilmington Star.

A special from Laurinburg to the Star, from correspondent "C," under date of Sunday, says: "One of the merchants, Mr. D. J. Williams, formally of Duplin county, while in the act of closing up his store, about 11 o'clock on Saturday night, was brutally shot in the head and killed by H. Oglesby, an ex-jail bird, United States revenue defrauder, and regular cut throat. The fiend is now in jail, and if he meets with anything like justice will certainly be hanged. Public indignation is very great, and did we not have a law-loving and law-abiding set of citizens the lynch law would be put in force."

Oglesby is the same individual who was arrested on a capias and lodged in jail in this city on Thursday, the 3rd inst., charged with violating the revenue laws, but released on the Friday ensuing by entering into the necessary bond of $300 for his appearance at the May term of the U. S. District Court, and who insisted that he had been wrongfully dealt with by the government officials.

LATER—From a passenger on the C. C. Railway, who arrived last night, we learn that the parties referred to above had been drinking quite freely, that they had quarrelled early in the afternoon but had adjusted their differences, and parted apparently good friends. How and why the difficulty was renewed, with such dreadful results, is a mystery.

The body of the murdered man arrived here last night, and will be carried to Faison to-day, the neighborhood from which he originally came.

### TROUBLES IN RUSSIA.

The most ardent admirer of Russian administration cannot deny that the latest authentic intelligence as to the political outlook there is of a more than ordinarily grave character. It is more than probable that the severe measures which the Russian Government has adopted with the Nihilists will throw the great majority of those who have any liberal instincts whatever into the arms of that powerful organization. The police have frequently to arrest people who are supposed to be members of secret societies. It is said that, as in Italy, the dominion of the Austrians, and as in France under the restored Bourbons, so in Russsia now, and thinking part of society is honeycombed with conclaves of Carbonari. An illustration of the hidden agitation is supposed to be found in the restlessness of the students at the universities, who in Russia, as in most other countries, are the first to be lifted on the wave of popular impulse. Some of them have been arrested for showing of disloyalty and exiled to Siberia, where a number, according to the latest advices, were shot down by the Czar's soldiers in attempting to escape from the prison. Yet, as we have already learned from good authorities, political questions and forms of government are matters almost of indifference to the Nihilist party, their aim being a purely social and economical one. What they profess to want is nothing short of the increasing of the happiness of mankind by an equal distribution of riches and the emancipation of the laborers from the capitalist. This the Czarowitch himself is to understand, who, as a leader of a Liberal section in the Court that is afraid of Nihilism, wishes if possible to meet it half way, though against his father's wishes. The policy on which the Czar has decided proves that henceforth a front will be exhibited toward revolution in Russsia still more unflinching than in Germany.

An investigation has lately been made into the congressional records to discover whether political talents and powers are often inherited in this country. In England it is a well known fact that in consequence of the condition of English society this power and influence is handed down from father to son. There are great political families in that country who legislate and rule its destinies for generation after generation. It is commonly supposed that in the United States this succession of political talents from father to son seldom happens—that the sons of our statesmen seldom follow in the footsteps of their fathers and legislate for the country, and the cases of the Bayards, of Deleware, are cited as exceptional. The investigation of the congressional records shows this to be an error. There are no less than eighty-two cases of sons succeeding their fathers in Congress and fifty-one cases of brothers occupying seats in Congress at the same time. There are quite a number of instances of families representing constituencies in Congress for several generations. Edgar C. Wilson, for instance, succeeded his father, Thos. Wilson, and was succeeded by the grandson Eugene M. Three generations of Adamses, of Archers, of Bayards, of Harrisons, of Laws, of Middletons, of Ogles and of Stocktons have followed each other as Representatives. Among the families especially productive of statesmen may be mentioned the Heisters, who have given us five Congressmen, the Kings, who have given us four, the Morrises seven, the Muhlenburgh five and the Marshals, Washburnes and Wilsons four.

The longest term of service ever enjoyed in Congress was thirty years, to which term Virginia elected one of her sons. A North Carolinian served twenty-eight years and a Virginia, North Carolinian and a native of Massachusetts twenty-four years. Of Congressmen elected to ten Congresses or over North Carolina contributed the greatest number, 4, Virginia and Ohio 3 each, Massachusetts 2, and Illinois 1. Of those serving over five terms Pennsylvania contributed 85, Virginia 38, North Carolina 24, Massachusetts 20, South Carolina 14, New York 13, Alabama 9, Connecticut 10, Florida 1, Georgia 5, Illinois 10, Kentucky 8, Louisiana 2, Maine 4, Maryland 8, Michigan 2, Minnesota 1, Mississippi 2, Missouri 2, New Hampshire 1, New Jersey 3, Tennessee 12, Vermont 6, and Wisconsin 2. Pennsylvania, it will be seen, is exceedingly Conservative and seldom changes its representatives; indeed, no less than 163 Pennsylvania congressmen have served over three terms in Congress. Next in order come Virginia, North Carolina, Massachusetts, Ohio and New York.

The extent to which old laws and legal principles have to be extended to meet the constant change of modern life has had a new illustration in a decision just rendered by the English high court of judicature extending the statute against furious driving to bicycles. The statute passed years since has no reference to bicycles or anything like bicycles, but the court held that the object of the legislation would be reached by affirming a sentence passed on a man for running a wayfarer down with a bicycle, precisely as if he had been run down on horseback or in a carriage.

The brave old second Congressional District has a man at last who can talk for her. The gallant Kitchen is not afraid to let 'em know what he thinks.

It is not generally known that Stanley, the famous African explorer was a deserter from the Confederate army. He was living in Arkansas, though born in Wales, when the war broke out and entered the Confederate service. Being captured, he took the oath of allegiance to the U. S. and served the balance of the war on a Yankee gunboat.

Talmage's chances of escaping deposition from the ministry are slight. The Rev. John Miller, of New Jersey, has just been formally deposed by the Presbytery of New Brunswick for heresy, and, as the Brookly Presbytery has a keen scent for heresy, it is apparent that Talmage and the Tabernacle are in jeopardy. Miller is a very learned and talented clergyman, and a very successful one, it is said, but he was weak on his Church's peculiar definition of the nature of Christ.

The negroes who recently settled in Kansas have probably been heard from by those left behind. The St. Louis papers report that the movement Kansas-ward is checked, and the boats now arriving from the South have few colored passengers. It will soon be in order to chronicle the return of many of these emigrants to their old homes in Louisiana and Mississippi.

The negro emigration movement from Louisiana and Mississippi began March 5, when 280 negroes boarded the steamer Belle of Memphis bound for St. Louis. Since that time 2760 emigrants have left these two States for Kansas. Of these only 400 paid their own way, the other 2360 being helped along by colored citizens of St. Louis and various charitable associations.

The war was precipitated because the North was opposed to negroes going to Kansas. Now the same men are crying revolution a second time and as a phase of their movement are trying to get the negroes to go to Kansas. Singular, isn't it?

A woman in London has paid 200 fines for drunkenness.

Gen. Grant will arrive in San Francisco, in the City of Pekin, about the 1st of June.

Gen. Wade Hampton is so much better that he hopes to take his seat in the Senate in a very short time.

Scott Lord, law partner of Senator Conkling, is reported to have received $110,000 as counsel fees in the Vanderbilt will case.

Mr. Tennyson, the poet, is described by a correspondent as one of the oldest looking creatures ever seen out of a Mormon meeting.

President John W. Garrett of the Baltraveling through the South in his car, with a party of friends.

Mahomet Tewuk Pacha, the eldest son of the Khedive, and the future ruler of Egypt, is a stout man, of pleasant face, and courteous, unaffected manner.

Of Herr Krupp, the famous maker of guns and cannon, the London World says that, he is a tall, fine-looking old man of remarkably commanding presence. He has a beautiful home at Essen.

The Pope doesn't see why he should keep a hundred servants to cook him a bowl of soup and its frugal accompaniments, and has consequently discharged two-thirds of the force at the Vatican.

M. Castelar, of Spain, in speaking of Thiers as president of the French Republic; declares that the work which he performed as a statesman was more important than that which Washington carried to a conclusion in the United States.

Milnes Levick, the actor, has developed quite a little romance. He was acting with Genevieve Ward, in Providence last week, and, at a social entertainment given there, discovered that his hostess was his own sister, whom he had not seen for twenty-nine years.

The Queen of the Belgians while in London visited the Home for Lost Dogs, at Battersea. Her Majesty is a great admirer of small dogs, and is used to carry one always in her arms which is arrayed in a coat of the same color as her dress. Each time the dress is changed by the august lady the dog's coat is also changed by an attendant.

### POLITICAL POINTS.

Philadelphia Times, The currents which are to make the Presidential candidates for 1880 have yet to be started, and when or how the political waters shall be troubled to start them is what the most intelligent observers will least attempt to guess at present.

Boston Post: The Washington Post has rendered a good service by obtaining valuable statistics showing how the Republicans have carried elections heretofore, and furnishing the key to their tenacity in holding on to the system of corruption: It has been almost impossible to fish out reports from the departments, and this fact alone is sufficient to condemn both the system and the officers who have administered it.

### Congressional Weakness.

Wash Cor. N. Y. Graphic.

Through the kindness of that veteran biographer and journalist, Ben Perley Poore, your correspondent has been favored with advance sheets of the "Congressional Directory," which, as usual, contains biographipal sketches of the members of the present Congress and much else that is of interest and value. Each Senator and member prepares the sketch of his own life, which is confined by the order of the Committee on Printing to a general formula, as follows: "Full name, place and date of birth, education, profession or business, public offices held, votes on last election to Congress, name of opponent and politics." But a great many members manage to work in other interesting information than that called for by this formula. For instance, we learn that George Augustus Bicknell, of Indiana, "was elected fence viewer in 1857;" that the Rev. G. De la Matyr "has been an itinerant elder of the Methodist Episcopal Church;" he gives his politics as National and Democrat;" that George D. Tillman, of South Carolina, is a lawyer by profession, but has never practiced, "except to give counsel and do conveyancing gratis among his neighbors." Congressman Morrison, of Illinois, omits in his biography the fact that he was a Union soldier. Twelve Congressmen from the South announce that they were in the legislatures of their respective States at the opening of the rebellion, and voted for the ordinance of secession.

## Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

Dread and despair fall upon the community when a terrible epidemic, like the cholera or yellow fever, suddenly desolates our homes: yet, all the while, a more insidious, but no less fatal foe, enters thousand of households every year and carries off the manly youth and budding womanhoods People call it presumption, or "decline." It is not, in most cases, the tuberculer phthisis or consumption of the lungs, which is the peculiar malady in climates like those of that British Islands and New England, but a general decay or arrest of the vital processes of nutrition All the doctors agree that there is no remedy for this but COD LIVER OIL, but they are constantly met by the obstacle of inability on the part of the patient to swallow or retain it. This repulsion is entirely vercome by SCOTT'S EMULSION OF THE OIL with the HYPOPHOSPHITES OF LIME AND SODA which is agreeable to the taste and an unequaled nutrient and tonic for the body nerves and brain.

THE GENUINE

DR. C. McLANE'S

Celebrated American

WORM SPECIFIC

OR

VERMIFUGE.

SYMPTOMS OF WORMS.

THE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist,

DR. C. McLANE'S VERMIFUGE will certainly effect a cure.

IT DOES NOT CONTAIN MERCURY in any form; it is an innocent preparation, *not capable of doing the slightest injury to the most tender infant.*

The genuine DR. McLANE'S VERMIFUGE bears the signatures of C. McLANE and FLEMING BROS. on the wrapper. —:o:—

DR. C. McLANE'S

LIVER PILLS

are not recommended as a remedy "for all the ills that flesh is heir to," but in affections of the liver, and in all Bilious Complaints, Dyspepsia and Sick Headache, or diseases of that character, they stand without a rival.

AGUE AND FEVER.

No better cathartic can be used preparatory to, or after taking Quinine.

As a simple purgative they are unequaled.

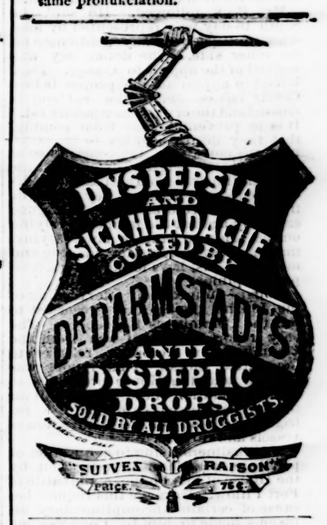
BEWARE OF IMITATIONS.

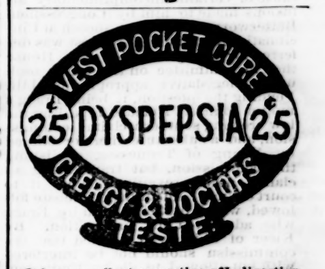
The genuine are never sugar coated.

Each box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

Each wrapper bears the signatures of C. McLANE and FLEMING BROS.

Insist upon having the genuine Dr. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.





It is an excellent corrective of Indigestion I have used it with prompt beneficial results.

Rev Dr. Mangum, Prof. Univ. of N. C.

I concur with Bishop Doggett in his estimate of the Vest Pocket Cure.

Rev. Drs Jeter, Broaddus, Dickinson, (Bap.)

It is endorsed by the direct personal testimony of men of national fame and strictness of speech It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Baptist Religious Herald, Va.

Chaplain Randolph Macon College, Va.

Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics, Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney, L. L. D. Ham. Sid. Col., Va.

It is highly esteemed here by the regular Medical Faculty and the people. It is excellent for indigestion and Flatulent Colic, sedative, soporific, tonic, slightly aperent, without nausea.

Rev. B. F. Woodward, P. E., Na. Conf.

About twelve years I suffered from Dyspepsia. Failing in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev Robert W. Watts, A. M., Va.

I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For prostration from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va.

It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines, so far as I observed in my practice, for all the complaints in families from indigestion. I use it and recommend it.

Editor Richmond Christian Advocate.

This remedy is of tried virtue. I have seen Dyspepsia cured completely by it. It seems to be an antidote to our "National Disease." The ingredients are not kept by the apothecaries, and have been difficult to get.

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignficant organ. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find too late that a fever or lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boschee's German Syrup been taken, a cure would have resulted, and a large bill from a doctor been avoided. For all diseases of the throat and lungs, Boschee's German Syrup has proved itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.

**A Remedy that has been Remedied.**

The invincible repugnance felt by almost every one to the smell and flavor of Cod Liver Oil, has prevented tens of thousands of the victims of debility, from reaping the benefits of its peculiar healing and nutritive properties. The almost hopeless consumptive, the martyr to rheumatism, the barely living shadow of men, women and children that emerge from the clutches of malarial fevers, all of these know, or at least their doctors know, that of all discovered remedies, this Oil is the best and often the only one that will build up their wasted bodies, and restore their shattered nerves, and far more effective than the Oil by itself is Scott's Emulsion of it, with the Hypophosphites of Lime and Soda. This is the finest and most natural food and medicine in the world, and wholly deprived of its disagreeable qualities. Sold by Wm. Simpson, Druggist.

MEDICINES.

# LIVER

This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

# LUNGS

The fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one-third of all death's victims, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on. $1,000 will be paid if Opium or Morphine, or any preparation of Opium, Morphine or Prussic Acid, can be found in the GLOBE FLOWER COUGH SYRUP, which has cured people who are living to-day with but one remaining lung. No greater wrong can be done than to say that Consumption is incurable. GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also, Colds, Cough, Asthma, Bronchitis, and all diseases of the throat and lungs. Read the testimonials of the Hon. Alexander H. Stephens, Gov. Smith and Ex-Gov. Brown of Ga., Hon. Geo. Peabody, as well as those of other remarkable cures in our book, free to all at the drug stores, and be convinced that if you wish to be cured you can be by taking the GLOBE FLOWER COUGH SYRUP. Take no Troches or Lozenges for Sore Throat, when you can get GLOBE FLOWER SYRUP at same price. For sale by all Druggists.

Price 25 Cts. and $1.00

# BLOOD

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not only case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. Dr. PEMBERTON'S STILLINGIA AND QUEEN'S DELIGHT is the only medicine upon which hope of recovery from Scrofula, Syphilis or Mercurial diseases is reasonably founded, and the only sure Cancer Cure. $10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.

A check to the order of A. B. deceased, in this city came to light on yesterday. It was dated Feb. 15 1867, and drawn on the Raleigh National Bank by the Cashier of a Wilmington Bank. **Concealed Deadly Weapons.**

The Wilkesboro Witness has made the important discovery that the new law against the carrying of concealed deadly weapons is even more sweeping in its character than has been supposed. It quotes the fourth section of the act, which provides as follows:

Any person being off his own premises, and having upon his person any deadly weapon described in section one, such possession shall be prima facie evidence of the concealment thereof.

That is to say a man lays himself liable by walking along the street, night or day, with a pistol in his hand, or strapped around his waist, outside of his clothes, as has been suggested, That is the wording of the law.

Here with my beer I sit,
And the golden moments flit;
They pass, alas! unheeded by;
Then say, oh! why can't I
Happily and careless sip my beer,

Comes when my mouth is dry? say why?

**A Serious Accident.**

W. Hinton, from Chatham county, but now a farmer in Wake about six miles east of Raleigh, was in the city a few days since and left for his home in apparently a sound and healthy condition. While on the road between Raleigh and Crabtree he was thrown or fell from his wagon, which was running rapidly down hill. He was seriously if not fatally injured, having sustained a severe contusion on his head and a terrible shock to his spinal vertebræ. He is now lying very low in the house of a person who lives in the neighborhood of the the place of his accident.

**New Serial Story by Jean Ingelow.**

A new serial story by Jean Ingelow will begin in the number of Littells Living Age for the week ending April 26th. It is published from the author's advance sheets, and opens in a very interesting way. The progress of a new story by this popular writer will be eagerly watched.

A new volume of the Living Age, by the way, began with the first number of April, affording a good time for the beginning of new subscriptions.

For fifty-two numbers of sixty-four pages each or more than 2,000 pages a year), the subscription price ($8) is low; while for $10.50 the publishers offer to send any one of the American $4 monthlies or weeklies with the Living Age for a year, both postpaid. Littell & Co., Boston, publishers.

**Given up by the Doctors.**

"I assure you it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."

**The Greatest Blessing.**

A simple, pure, harmless remedy, that cures every time, and prevents disease by keeping the blood pure, stomach regular, kidneys and liver active, is the greatest blessing ever conferred upon man. Horace Greeley's bad penmanship has passed into a proverb. No description of it without a fac-simile of the writing could convey any idea of its illegibility. It is charitable, however, to the old philosopher to suppose that the fault lay with the pens he had been accustomed to use, but what a world of grief and trouble would have been saved to the compositors if he hd written his editorials witheran Easta brook Falcon Pen.

**Pool & Hunt.**

Attention is directed to the advertisement of Pool & Hunt, the most extensive turbine water wheel builders in the country. There are nearly ten thousand of their wheels in use and with the great reduction made in prices last month they expect to do a largely increased business this year. They invite correspondence from all in want of machinery and will send their large new pamphlet free.

**The Celebrated Seven Springs Iron and Alum Mass.**

This is decidedly the most useful, besides being the most efficient Family Medicine ever placed within the reach of any people. Its reputation extends far and wide, and its great popularity is due entirely to its own merits. For relieving Sick and Nervous Headache, it may be truly said, to have no equal. Dyspeptics find it just the remedy for their troubles. Mothers and daughters have long since discovered in its use a "panacea" for their worst ills; and now we have the testimonies of two eminent ministers of the gospel, from Southern cities, setting forth its specific effects in other more dreaded and troublesome diseases.

Rev. John F. Mayne, Theological Seminary, Columbia, S. C., writes: "Am afflicted with that terrible disease, 'Diabetes;' am using the 'Seven Springs Mass' with a considerable degree of relief; is the only remedy I have yet found to suit my case; want to continue its use until a cure is effected if possible. Send worth of the enclosed P. O. order immediately.
JNO. F. MAYNE.
Columbia, S. C., Jan. 23d, 1879.

Rev. J. D. Parker, of New Orleans, La., writes: "Having tried effectually the 'Seven Springs Iron and Alum Mass,' for Diarhea, Kidney afflictions, &c., I take pleasure in recommending its use in these complaints. In my case it affords immediate relief.

**Unheard of Bargains!**

Who tries his best to please his friends
And in his labors never ends,
Bargains he'll give you when you call
For No. 10 is all and all.
Of other houses you hear them talk;
In Fayetteville street just take a walk
And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades.
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adorn your forms and faces;
Picture frames and mouldings too
In great variety, black, brown and blue.
His window cornices and lambrequins fine,
Will make your rooms and parlor shine.
Perforated mottoes, and white holly baskets.
And every other sort of stuff,
Of which he hopes to have enough.
So now he bids you all adieu
And wishes a happy new year too,
And not forget

## WHAT I KNOW ABOUT VEGETINE.

SOUTH BOSTON, May 9, 1876.

H. R. STEVENS, Esq.:

Dear Sir—I have had considerable experience with the VEGETINE. For dyspepsia, general debility, and impure blood, the VEGETINE is superior to anything which I have ever used. I commenced taking VEGETINE about the middle of last winter, and, after using a few bottles, it entirely cured me of dyspepsia, and my blood never was in so good condition as at the present time. It will afford me pleasure to give any further particulars relative to what I know about this good medicine to any one who will call or address me at my residence, 386 Athens street.
Very respectfully,
MONROE PARKER,
386 Athens street.

**Dyspepsia.**

SYMPTOMS.—Want of appetite, rising of food and wind from the stomach, acidity of the stomach, heartburn, dryness and whiteness of the tongue in the morning sense of distension in the stomach and bowels, sometimes rumbling and pain; costiveness, which is occasionally interrupted by diarrhœa; paleness of the urine. The mouth is clammy, or has a sour or bitter taste. Other frequent symptoms are waterbrash, palpitation of the heart, headache, and disorders of the senses, as seeing double, etc. There is general debility, languor and aversion to motion, dejection of the spirits, disturbed sleep, and frightful dreams.

**Gained Fifteen Pounds of Flesh.**

SOUTH BERWICK, Me., Jan. 17, 1872.

H. R. STEVENS, Esq.:

Dear Sir—I have had dyspepsia in its worst form for the last ten years, and have taken hundreds of dollars' worth of medicine without obtaining any relief. In September last I commenced taking the VEGETINE, since which time my health has steadily improved. My food digests well, and I have gained fifteen pounds of flesh. There are several others in this place taking the VEGETINE, and all have obtained relief.
Yours truly,
THOMAS E. MOORE,
Overseer of Card Room, Portsmouth Co.'s Mills.

**FEEL MYSELF A NEW MAN.**

NATICK, Mass., June 1, 1875.

MR. H. R. STEVENS:

Dear Sir—Through the advice and earnest persuasion of the Rev. E. S. Best, of this place, I have been taking VEGETINE for dyspepsia, of which I have suffered for years.

I have used only two bottles, and already feel myself a new man. Respectfully,
DR. J. W. CARTER.

MR. H. R. STEVENS:

Dear Sir—The two bottles of VEGETINE furnished me by your agent my wife has used with great benefit.

For a long time she has been troubled with dizziness and costiveness; these troubles are now entirely removed by the use of VEGETINE. She was also troubled with dyspepsia and general debility, and has been greatly benefitted.

MR. H. R. STEVENS:

Dear Sir—I will most cheerfully add my testimony to the great number you have already received in favor of your great and good medicine, VEGETINE, for I do not think enough can be said in its praise, for I was troubled over thirty years with that dreadful disease, Catarrh, and had such bad coughing spells that it would seem as though I could never breathe any more, and VEGETINE has cured me; and I do feel to thank God all the time that there is so good a medicine as VEGETINE, and I also think it one of the best medicines for coughs and weak sinking feelings at the stomach, and advise everybody to take the VEGETINE, for I can assure them it is one of the best medicines that ever was.

**APPRECIATION.**

CHARLESTOWN, Mass., March 19, 1869.

H. R. STEVENS:

This is to certify that I have used your "Blood Preparation" (VEGETINE) in my family for several years, and think that for Scrofula or Cankerous Humors or Rheumatic affections, it cannot be excelled; and as a blood purifier and spring medicine it is the best thing I have ever used; and I have used almost everything. I can cheerfully recommend it to any one in need of such a medicine.
Yours respectfully,
MRS. A. F. DINSMORE,

## Ayer's Cathartic Pills,

For all the purposes of a Family Physic, and for curing Costiveness, Jaundice, Indigestion, Foul Stomach, Breath, Headache, Erysipelas, Rheumatism, Eruptions and Skin Diseases, Biliousness, Dropsy, Tumors, Worms, Neuralgia, as a Dinner Pill, for Purifying the Blood,

Are the most effective and congenial purgative ever discovered. They are mild, but effectual in their operation, moving the bowels surely and without pain. Although gentle in their operation, they are still the most thorough and searching cathartic medicine that can be employed: cleansing the stomach and bowels, and even the blood. In small doses of one pill a day, they stimulate the digestive organs and promote vigorous health.

AYER'S PILLS have been known for more than a quarter of a century, and have obtained a world-wide reputation for their virtues. They correct diseased action in the several assimilative organs of the body, and are so composed that obstructions within their range can rarely withstand or evade them. Not only do they cure the every-day complaints of everybody, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are, at the same time, the safest and best physic for children. By their aperient action they gripe much less than the common purgatives, and never give pain when the bowels are not inflamed. They reach the vital fountains of the blood, and strengthen the system by freeing it from the elements of weakness.

Adapted to all ages and conditions in all climates, containing neither calomel nor any deleterious drug, these PILLS may be taken with safety by anybody. Their sugar-coating preserves them ever fresh, and makes them pleasant to take; while being purely vegetable, no harm can arise from their use in any quantity.
